Summary

I'm a software engineer who loves creating and pushing ideas to their full potential. I believe in building things that are not just functional, but meaningful.

Skills

TypeScript

JavaScript

Svelte / SvelteKit

HTML & CSS

Node.js

Git

UI engineering

Open source

Experience

Software Engineer

Independent & open source · Remote

2020 – Present

- Design and ship web experiences with SvelteKit, TypeScript, and modern tooling.
- Publish and maintain open source libraries and tooling for the developer ecosystem.

- Collaborate asynchronously through GitHub on issues, reviews, and releases.

Education

Codam Coding College

Amsterdam, Netherlands

2022 – Present

Peer-to-peer software engineering curriculum in the 42 Network; project-based learning in C and beyond.
